Hi, Kate:

Here are some drafts. Please let me know if you have any questions or if you require additional information.

Thank you,

Joe

Subject: FW: SUPER URGENT - FY 2020 Final Budget Hearing Fact Sheets
Importance: High

Joe –

See message below. It looks like Anaconda Smelter and Silver Bow need fact sheets (not to exceed one page). I have included an example sheet in case you want a template.

The due date to the OLEM IO is March 12 COB.

Can you work with the RPMs to develop fact sheets and send for review by Monday? Sorry for the short turn around, it is what it is ...

Subject: FY 2020 Final Budget Hearing Fact Sheets
Importance: High

All: The OLEM IO budget shop is requesting updated FY 2020 fact sheets; below is the list of topics and attached are the corresponding versions from the last go around. I've indicated which division I think should have the lead in red but, obviously, please work out with each other whom should do what. ARD, I'm going to forward some site-specific fact sheets that regions 3, 4 and 6 sent this week for the CHEJ meeting that occurred Tuesday—they might be helpful in

updating the Minden, 35th Ave and Tar Creek fact sheets. Unfortunately, the turnaround time is very tight so we'll need your updates in the IO by noon on Tuesday, March 12. Please let me know if you have any questions. Thanks!

Here you go. For those fact sheets that have been updated recently, I've included that version rather than the one from last year's budget hearing.

Since we have no official format yet, we're going to stay with the Question/Answer/Background format for now. I'll let you know if and when we get something from OCFO on format in the meantime. The fact sheet should only be a page long with no more than 3 bullets in the answer.

I think this is all of them – let me know if you think you're missing one.

Subject: FY 2020 Final (for now) Budget Hearing Fact Sheet List

Hi there everyone,

Thanks for your help developing this year's fact sheet list for the budget hearings. Attached is the version that was approved by the IO. For the most part, they took the proposed changes, however, OSRTI had some proposed for deletion that were added back in. Additionally, the overall OLEM fact sheet on PFAS has moved to OSRTI.

The latest version of the fact sheets are in the BFS DocPrep model. I'm not sure who has access to that module, so please let me know if you need me to send the latest version available (note that I don't think these are the final-final ones, but they are the most final ones we have).

The fact sheets will be due to ARMS (me and Jennifer Wilbur) on **Friday, March 22nd**.

If I hear any updates on timing between now and the due date, I will let you know ASAP.

As always, please call me with any questions.
